LONGORIA

FULLY AUTOMATED

RESIDENCE

"El Edificio Longoria" Madrid, Spain Calle Manuel Gonzalez Longoria, 10

Fully Automated Car Parking System

Capacity : 40 Car Parking Spaces Construction year: 2018

Employer : Fernandez Molina Obras Y Servicios, S.L. Model : Parkule 100

Supplier : Parkolay Application : Residential Building, Permanent User

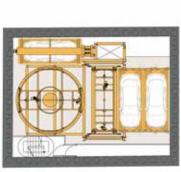

The "El Edificio Longoria 10" building, located in the center of Madrid, is a new housing project built under the most strict criteria of quality and sustainability. The design of this underground solution includes a Cantilaver Lift in Entrance-Exit Room transporting the vehicles to the Parkule 100 Lift travelling in a depth of 20 m. with a speed of 0.5 m/s. The solution also includes a Turntable during transfer process that allows an easy entry and exit to the transfer area, without many maneuvering skills from the Users. This parking facility can welcome up to 40 vehicles. (90% SUV) Thanks to the World's fastest pallet transfer mechanism developed in-house, the retrieval time is minimal as such that 33% of the total parking capacity can be evacuated with in maximum one hour.
